## Make sure you are on the right plan

Could you be taking the wrong M365 subscription?

## Optimise your costs

Could you be paying for more than you need?

## Boost technology adoption

Could you benefit by unlocking more applications?

## Our experts can help you optimise and secure your M365 solution.

Wanstor are a Tier 1 Microsoft CSP Solutions Partner, with significant experience in helping customers optimise their M365 environments.

If left unoptimised, your tenancy may become unwieldy, cost-prohibitive and even pose a real threat to your business.

# Why Wanstor?

While customers often right-size their tenancy upon migration to M365 to ensure that the correct licensing, features and security are implemented, over time these requirements change and gaps emerge.

**Overpaying for mismanaged  
licensing**

**Lacking critical feature  
implementation**

**Mismanagement of mailboxes  
leading to access issues**

**Easy access to collaboration tools  
can spiral out of control**

As companies move to modernise their operations, Microsoft 365 offers an ever-growing comprehensive suite of tools to streamline collaboration, communication, productivity and management all in one convenient platform when configured optimally.

**“** *We're passionate about helping our customers be better through technology. Our M365 consultation days are designed to help you become more efficient and more secure, and to save you money.”*

**Dustin-Lee Duxbury**, Head of Architecture
